Typically, these family or parent appointments are scheduled every 5<sup>th</sup> session or as frequently as necessary. Parents are expected to attend these sessions to gain parental strategies and provide insight to their child's therapist. Parents are not allowed to "drop off their children". A responsible adult must be present to speak to the therapist should the therapist need to speak to you. **You must inform our office of any changes in child custody for the child/children related to our counseling services.**

### Informed Consent for Teletherapy Services

The following information is provided to clients who are seeking Teletherapy services. This document covers your rights, risks and benefits associated with receiving services, my policies, and your authorization. Please read this document carefully, note any questions you would like to discuss before you agree to sign.

#### Teletherapy Services Defined:

Teletherapy Services means the remote delivering of any form of counseling services via technology-assisted media. This includes a wide array of clinical services and various forms of technology that include, but is not limited to, video, internet, a smartphone, tablet, PC desktop system or other electronic means. The delivery method must be secured by two-way encryption to be considered secure. Synchronous (at the same time) secure video conferencing is the preferred method of service delivery.

#### Limitations of Teletherapy Services:

While Teletherapy Services offer several advantages such as convenience and flexibility, it is an alternative form of therapy, or adjunct to therapy, and thus may involve disadvantages and limitations. *For example, there may be a disruption to the service (e.g. phone gets cut off or video drops).* This can be frustrating and interrupt the normal flow of personal interaction.

Primarily, there is a risk of misunderstanding one another when communication lacks visual or auditory cues. *For example, if video quality is lacking for some reason, your counselor might not see various details such as facial expressions. Or if audio quality is lacking, they might not hear differences in your tone of voice that they could easily pick up if you were in their office.*

Additionally, your therapist's office decreases the likelihood of interruptions. However, there are ways to minimize interruptions and maximize privacy and effectiveness. Your therapist will take every precaution to ensure technologically secure and environmentally private sessions.

**Interactive Video, Electronic Medical Record, Secure Email for Documents: Forever Hope Counseling uses JITUZU and or ZOOM for interactive video, which complies with HIPAA standards requiring 256-bit AES encryption.**

#### Client Responsibilities for Teletherapy Services:

1. The virtual sessions can only be conducted while the client is within the state of **TEXAS**.
2. The virtual sessions must be conducted on a Wi-Fi or ethernet (not mobile) network for the best connections and to minimize disruption.
3. Only communicate through a device that you know is safe and technologically secure (e.g. has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.) Do not use "auto-remember" names and passwords.
4. If you conduct a Teletherapy session at your place of employment, make sure you have checked your company's policy before using a work computer for personal communication.
5. As the client, you are responsible for finding a private, quiet location where the sessions may be conducted.
6. Sessions are not able to take place if other individuals are present in your location.
7. Your therapist is required to verify your identity and location at the start of each session.

### **In Case of Technology Failure:**

Teletherapy sessions could encounter a technological failure. Difficulties with hardware, software, equipment, and/or services supplied by a 3rd party may result in service interruptions. *If something occurs to prevent or disrupt any scheduled appointment due to technical complications and the session cannot be completed via online video conferencing, PLEASE call the office at (210) 490-9062.* You must have access to the phone that your therapist has so you can be reached. In addition, your session may need to be rescheduled, if there are problems with connectivity.

### **I AGREE TO THE FOLLOWING (initials):**

\_\_\_\_\_ I agree to take full responsibility for the security of any communications or treatment on my own computer or electronic device and in my own physical location. I understand I am solely responsible for maintaining the strict confidentiality of my user ID, password, and/or connectivity link. I shall not allow another person to use my user ID or connectivity link to access services. I also understand that I am responsible for using this technology in a secure and private location so that others cannot hear my conversations.

\_\_\_\_\_ I understand that there will be no recording of any of the online sessions and that all information disclosed within sessions and the written records pertaining to those sessions are confidential and may not be revealed to anyone without my written permission, except where disclosure is required by law.

\_\_\_\_\_ I voluntarily agree to receive online therapy, parent, couples or family therapy services including an assessment, continued care, treatment, and/or other services and furthermore authorize **FOREVER HOPE COUNSELING & EDUCATIONAL SERVICES, LLC** to provide such care, treatment or services as are considered necessary and advisable. I understand and agree that I will participate in the planning of my care, treatment, or services and that I may withdraw consent for such care, treatment, or services that I receive at any time.
